Here is an example of how to count on:

1. Find the biggest/ highest/ largest number first
2. Work out how many we need to count on
3. Start at the highest number and count on the amount
4. Start counting from the next number
   18, 19, 20, 21, 22, 23, 24, 25, 26
5. Write down the answer which is the number that we end up with
Using a number line to count on:

94 + 8 =

94  95  96  97  98  99  100  101  102
